Operation Certification

江苏神马电力股份有限公司为新疆宁州户变-昌吉变 220kV 输电线路工程提供 4 基 220kV（双回）横担塔产品，工程供货清单如下表所示：

SHEMAR provided four composite cross-arm towers for Xinjiang ningzhouhu-changji 220kV D/C Transmission Line Project. The detail of the composite cross-arm towers is as below:

产品类型 Specification	电压等级 Voltage	数量/基 Quantity
复合横担 Composite cross arm-tower	220kV	4
合计 Total		4

江苏神马电力股份有限公司复合横担塔缩小了输电走廊，降低了塔高，并有效防止输电线路风偏跳闸事故，对于提升输电线

路的可靠性和经济性具有重要意义。

SHEMAR's composite cross-arm towers make the corridor of the transmission line narrower, and are much lower. SHEMAR's composite cross-arm towers can prevent windage yaw trip and make great contribution to improve OHL's reliability and economical efficiency.

2017 年工程成功投入试运行。至今为止，江苏神马电力股份有限公司所提供的复合横担塔产品运行状态良好。

The project was put into operation in 2017. SHEMAR's composite cross-arm towers are working in good situation.
